PROFILE SUMMARY

Enthusiastic **B.Tech Computer Science** student passionate about **AI/ML** and **frontend development**, with hands-on experience in **React.js** and a growing proficiency in backend technologies. Strong problem-solving skills, eager to contribute innovative ideas to the industry. Continuously building expertise in **generative AI, optimization problems, and real-world data analysis** through projects that enhance practical knowledge and industry readiness.

EDUCATION

JK Lakshmipat University, Jaipur
B.Tech in Computer Science (07/2027)
CGPA (2023-2024): 6.6

CGPA(2024-2025): 7.5

SGPA(2025-2026):7.5(5 semester)

Euro International School, Rewari, Haryana
12th Standard (03/2023) - 80%
10th Standard (03/2021) - 90%

TECHNICAL SKILLS

- **Computer Science Fundamentals:** Data Structures, Algorithms, Database Management (MySQL), Operating Systems, Optimization in Computer Science
 - **Programming Languages:** C/C++, Python, React.js, Bash Scripting, Node.js, MongoDB, VHDL
 - **Machine Learning:** NumPy, Pandas, Scikit-learn, SymPy, langchain
 - **Version Control:** Git/GitHub
 - **Testing & Code Analysis:** Pytest, Pytest Coverage
-

ACHIEVEMENTS

- Solved **100+ problems on LeetCode**, improving problem-solving with data structures, algorithms, greedy algorithms, and dynamic programming.
 - **Runner-up in Photography Competition (2024).**
-

PROJECT EXPERIENCE

1. *Online Attendance Portal (In Progress)*

- Developing a full-stack **online attendance system** using **React.js, Node.js, and MySQL**.
- Integrating **geolocation and face recognition** to automate attendance tracking in hostels.

2. *Syllabus Repository*

- Built a **syllabus repository** using **React.js** (frontend) and **MySQL with Express.js** for database management.
- Led the **frontend development** for a team-based project.

3. *UI/UX Prototypes (Figma)*

- Designed and prototyped **web interfaces** using **Figma** to enhance user experience.

4. *DSA-CHATBOT*

- RAG - based chatbot using ollama mistral (Gen AI)

5. *Protein secondary structure prediction using CNN*

- Under Summer Internship program (LNMNIT)

6. *AI driven Mental assistance for rural areas (sanjeevani) .*
